Tired of spending HG calling Ray and V when Â Âdon't get it? I'm sorry. So I decided to sacrifice a few hours and ³ to make a good spreadsheet detailing when the characters pick up their phones. This is a work in progress. Â I don't of playing through the ©s of VâÂ ÂÂ Â Also ©m Â I've finished filling in the chat room, but Â Â I jumped on Day 1 atam, then Â I have a lot of these connections µ also. Therefore, this guide does not guarantee that the characters will pick up every time I Â Â listed that they pick up; Â Â just a list of the time they caught me. Most of the time, it should be the same for others, but when IÂ Âlost a chat room, sometimes calls are late and may not be 100% accurateThis said: I appreciate the help! If you donthave µ s about a day I have, please let me know! Â Â change it as soon as I can :)Edit: If youArent thinking about the Â Â Of course, this will be more difficult for people with tons and tons of telephonic calls to filter, and if you didn't buy days in advance, Â it will be helpful in everything (since you couldn't have called a character at 14h in real time, but after an 8pm chat room and will appear on your phone record as 2 pm, not 8 pm). But any assistance you've enjoyed, if Willing! How to use it: Each day I am in a separate tab at the bottom of the worksheets, A legend on day 1: basically '-means I called them, but they didn't make use of it, and an 'x' means I have to talk to them. INCREMAR means that the character called me, and the extrovert means that I called this character of anything in the column of sa is not blank, not because I did not try to call it character (so it is possible that they could take; I did not try) to mention important things in the Notes section, as if I lost a chat room or if there was any bug, etc. that covers it. I will probably do a new post when this guide is finished. I hope that helps you. Link to the worksheet, if you haven't clicked on the links in the top 48 I just played this route today and decided to share my phone book. This does not count in a spoiler or choice answers, focused purely on phone call time. This guide 90% accurate when I did it myself. I think maybe I've had some mistakes. Please tell me if you haven't noticed any mistakes and I'll edit my guide to achieve 100% perfection.ah! As a bonus, they include the response to the guest email I found. So, what I¢ÃÂÂve done here is written down the calls that are picked up before or after certain chats in real time. If I don¢ÃÂÂt list down a chat then that means the characters won¢ÃÂÂt pick up if you¢ÃÂÂve already called them and received the chat. If you unlock 24 hours it messes with the outgoing call times and makes them happen one chat earlier because the game sees that the next chat has been unlocked. So, don¢ÃÂÂt be surprised if you unlock 24 hours and find out that you have outgoing calls one chat earlier than what is listed here. NOTE: I¢ÃÂÂve written down the earliest times you can get new outgoing phone call content but the way outgoing phone calls work is in time windows. For example, on Day 1, Zen has a call about being on a shoot with a director that you can access by calling him after the 08:00 chat BUT I¢ÃÂÂve also gotten this call at 17:00 before, meaning that between 08:00 and 17:00 Zen will give you this call until it disappears, whether through another call replacing it or just after a certain time (I don¢ÃÂÂt know when the latest you can call the characters is because that¢ÃÂÂd be a Herculean task to do by myself, and there¢ÃÂÂs no point, haha). NOTE 2: Also, just a heads up to those who want every variation in a call, the characters have additional lines when you miss their incoming calls and then call them back. Sometimes it¢ÃÂÂs just one line and sometimes it¢ÃÂÂs something a bit longer and cuter. Thanks to Hime, we know how this works now. If you miss or purposefully reject an incoming call you can only successfully call them back after the next chat opens. For example, if you miss Seven¢ÃÂÂs call on Day 1 at 0:03 then you have to wait until the 2:21 chat opens to have him pick up your call back. NOTE 3: There are some Bad End specific calls.
